MDI 70-6 Digi

With the new digital printing machine MORLOCK opens up entirely **new application areas**. The innovative MDI 70-6 Digi guarantees with its **flexible handling a simple operation**. By printing directly from the PC to the substrate, you reduce the setup time in your workflow.

With a speed of 0.25 m/s you can **produce quickly**. **Example:** Assuming a product in credit card size (85 mm x 54 mm) you can print per hour up to 10,500 pieces.

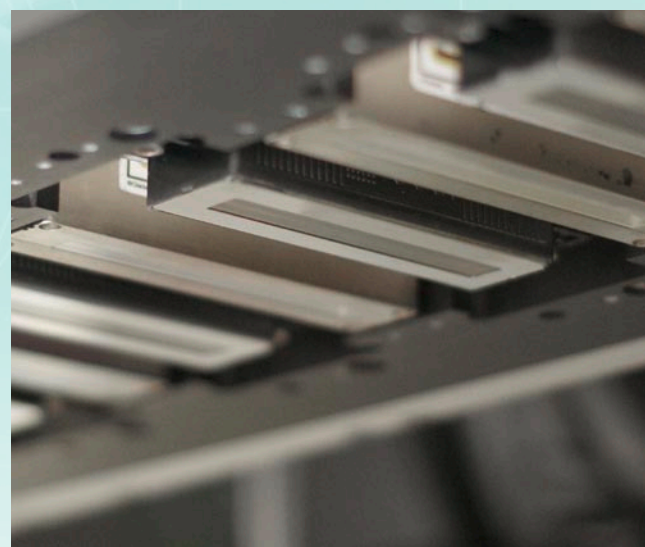

At a glance!

- **Direct print** („PC-to-substrate“)
- up zu **6 print heads**
- integrated **UV-curing**
- as stand alone machine or **integration in existing automation**

Technical specifications (stand alone machine)
